XM Radio is the best thing to happen to radio. I get tired of listening to the commercial of people screaming at you to try to get you to buy anything and everything. I was so glad that XM started carrying traffic and weather, now I do not have to turn on my local radio stations at all. It is too good to be true. I pay for XM service and believe that I have a right to hear local traffic and weather whenever I need it. It is a great station, and with it being constantly on, I do not have to worry about traffic on my way home.
